ADA, OKLAHOMA, FRIDAY, JULY 15, 1921

FIVE CENTS THE COPY

67 NAMES GIVEN OUT FOR MAKING BATTERY IN ADA

Local Men Eager for Camp
to Start August 1,
Is Word.

75 MEN MAY BE TAKEN
Mustering Into Service Is
Scheduled for Next
Monday Night.

Names of 67 Ada men who will make up Battery "F" of the Oklahoma National Guard, to be mustered in at the city hall Monday night at 8 o'clock by a staff of officers representing the state guard and the federal government, were announced this morning by Lieut. Robert Kerr and Lieut. Herbert Felix, in charge of recruiting the battery.

The list will not be closed with this number, although this is far over the minimum required by the state organization. A maximum of 75 men will be allowed the Ada battery and efforts will be made to have this number signed up and examined before the induction Monday night. Local men are enthusiastic for forming the battery, it is reported, and all recruits who have signed up for duty are eager to get the encampment by August 1, Lieutenant Kerr said.

All citizens of the town are invited to come out to the city hall Monday night and see the mustering. Officers said. A wire from Oklahoma City this morning stated that Col. "Patsy" O'Neil, hero of the world war, probably would attend the induction in company with Charles Barrett, adjutant general, and Maj. Earl Whitney, of the ordinance department. Speeches will be made by officers of the mustering staff and by commanders of the Ada battery.

Following is Battery "F" roster up until noon today:

Eugene H. Branscome, Parker Norman, George W. Carr, Edward S. Branscome, Julian W. Allen, Charles Stone, Wm. H. Neely, Geo. L. Nebbett, Frank Powell, Buck Taylor, Wilson Sadler, Douglas W. Riddle, Hubert T. Priest, Paul H. Payne, Laran N. Malloy, Travis M. Kerr, Chas. W. Hooper, U. C. Dixon, Chas. R. Cox.

Edwin Y. Coleman, Irvin Choate, Earl Choate, Wilson Chilcutt, Jesse R. Carr, Evert L. Lamb, Meadows Jones, Cecil E. Norton, Bayless E. Terry, Joe Sims Kennedy, Chester Penrose, Clifton M. Brandon, Neal Rock, Lowell Stalcup, Joe T. McNew, Manson L. Hawkins, Walter Entice, Cecil W. Payne, John B. Sanders, Sam Wilenzick.

Weston M. Cain, Cole Jobe, True B. Emerson, Kelsie Wallace, Claude A. Billingsley, Maurice H. Wilbanks, Turner M. King, Claud Thos. Smith, Churchill Thomas, Ambrose W. Nettles, Glenn F. Curry, Earl M. Warr, Leslie B. Branscome, Rupert C. Allen, Albert T. H. Roper, Luther E. Burgess, Wm. H. Roper, Delbert J. Turley, Wesley C. Lillard, Theodore Cotton, Clifford M. Dorsey, Emmett F. Nettles, Houston B. Mount, Hardy Roach, John B. McKeel, Lester W. King, Everett M. Carr, Gordon Worthington.

Rain Breaks Drouth

(By the Associated Press)

LONDON, July 15.—After virtually three months of drouth, rain fell in London and various parts of the country yesterday.

Handling Mr. Boll Weevil

P. S. Case, of the M. & P. Bank of Ada, is in receipt of two letters from Hillsboro, Texas, telling the condition there, of crops in general and cotton in particular. As Hillsboro is in the center of one of the worst weevil-infested districts, it may be interesting to the farmers of Pontotoc County to learn some of the methods employed by the Hillsboro farmers to rid themselves of this pest.

Part of the farmers there use a boll-weevil catcher, that is attached to the cultivator and it is said that they catch thousands of the bugs in them. Another effective way is to pick up the squares when they first begin to fall to the ground and burn them, thus killing many of the weevils and preventing the hatching of many eggs. The third way is to saturate a sack with kerosene oil, fix it on the cultivator, and drag it over the cotton. The fumes from the oil either drive the weevils away or kill them.

MRS. KABER BEGS TO TELL IT ALL

"But Mr. Corrigan Won't Let Me," She Declares
Entering Court.

(By the Associated Press)

CLEVELAND, July 15.—Mrs. Eva Katharine Kaber was carried into the courtroom by two bailiffs this morning when her trial on the charge of murdering her husband, Daniel F. Kaber, was resumed. When seated, she clutched the arm of the attending bailiff seated at her side and amid sobs pleaded that he not leave her.

"Don't leave me; don't leave me; you won't leave me," she said. William J. Corrigan, Mrs. Kaber's attorney, tried to quiet her.

"I want to tell them; I want to tell them everything, but Mr. Corrigan won't let me," she sobbed to the bailiff.

Mrs. Kaber's hat had fallen from her head and her hair was disheveled. Dr. P. A. Jacobs, who was county coroner at the time of the murder, testified that Mr. Kaber's death was caused by the stab wounds which he received on the night of July 18, 1919. He also declared that he thought Mrs. Kaber was "perfectly sane" when she testified at the inquest conducted before him.

SIX NEOPHYTES LEARN MYSTERY

Ada Conclave of Red, Red
Rose Initiates in Last
Meeting.

Six lowly neophytes were led through the channels of mystery of initiation into the Ancient and Beneficent Order of the Red, Red Rose last night with 60 members present to guide them and prepare the horrors. First a banquet was given at the American Cafe where the adopted fowl, chicken, was partaken.

After this "singular" joy was dispensed with, the long, terrible march to the Normal was started and amidst the shouts of officers, yells of terrified members and antics of the terrified, the six neophytes struggled forward to their destination. On reaching the Normal building the mystery chamber was prepared and the neophytes led to the fate awaiting them.

J. W. Huff, one of the unfortunate, was given a trial for selling bogus mining stock for the Hidden Treasury Mining Co., but due to insufficient evidence he was released and accepted as a member of the Ada Conclave. J. A. Brock and G. G. Norvell, two other neophytes were given an insight into the terrors of the initiation while their more fortunate brothers looked on in trembling silence.

New members accepted last night were J. A. Brock, G. G. Norvell, J. W. Huff, J. C. Harrell, J. E. Wales, G. M. Harrell. This will be the last meeting of the term and the "Old Man" departed for other fields late last night, pleased with his "children" in Ada Out of town visitors from Oklahoma City, Shawnee, Tulsa, Tahlequah and Chickasha expressed themselves as being pleased with the treatment given them by Ada Red, Red Rose members.

OKLAHOMA NEGRO MEETS DEATH IN ELECTRIC CHAIR

McALESTER, July 15.—Eli Thomas, negro, was electrocuted shortly after midnight Thursday night at the state penitentiary for the murder of Selma Mayfield, a white boy, at a picnic near Calhoun, Oklahoma, more than a year ago.

The condemned man walked to the death cell unaided and after a short speech to the spectators took his seat in the chair.

Police Waging War to Stop Violation of Traffic Orders

Police have started their campaign against speeding and other traffic offenses. Reports received at headquarters today stated that more than 50 cars were seen speeding up the Normal driveway early last night in a very short time. One arrest was made last night, the charges being speeding and running a car without lights. The defendant pleaded guilty to both charges and was fined \$25.

"Hizoner" the Mayor stated today that with the aid of a car he believes the police will be able to stop a good amount of speeding. He has advised his men to be especially on the look out for car drivers violating traffic laws.

POLICE TURNED DOWN HELP FOR RIOT HE AVERS

Tulsa Officer Told Him to
"Get a Nigger", Man
Declares.

OFFICERS SET FIRES?

State Witnesses Assert
Cops Held Crowd Back
and Broke Glass.

(By the Associated Press)

TULSA, July 15.—The state produced additional witnesses today in the case of Chief of Police John A. Gustafson, now suspended and on trial for removal, to support its claim that the chief and his deputies were negligent in trying to prevent and stop the race riot. This is one of the four counts against the chief on which he is being tried.

Laurel Buck, 26, bricklayer and overseas veteran, was the first witness of the morning session. He stated that he went to the police station immediately after the skirmish at the courthouse and asked to be sworn in as a special officer. He said that the policeman told him they could handle the situation but advised him to go and get a gun and get a "nigger". He was unable to identify the policeman with whom he talked but said he was inside the station when the conversation occurred.

Buck said he went down to the edge of the negro district early next morning and saw one policeman keeping the crowd back while two others about a half a block away were going into every building along the street, breaking plate glass windows and entering. He stated that each time immediately after they came out smoke began to roll out of the building. Buck declared that he had seen the two policemen many times before on the streets and thought he might be able to identify them.

Then the defense asked him to go down to the police station and do this, and he said he was not certain he could do it.

Saw Buildings Afire.

I. Buck, building contractor and father of Laurel, said he entered the negro district about 7:30 on the morning of June 1. He stated that the only two story brick building there and a number of frame buildings in the vicinity of the negro district were already burning when he arrived.

"I thought I might be able to save my building," said Bush. "I asked a uniformed policeman who was holding the crowd back if I could go out and try, and he said 'you ain't got no business building for negroes to live in.'"

The defense moved to strike the answer out but the court permitted it to go in.

"I tried to get in again," said Buck, "and the same policeman told me if I didn't want to get my head shot off I'd better get away and I did."

ALLENBY QUELLING EGYPTIAN UNREST

Viscount Allenby.

Field Marshal Viscount Allenby, the British high commissioner to Egypt, is successfully putting down the revolutionary elements in that country. This is the most recent photograph of Viscount Allenby, and was taken in the garden of his official residence in Cairo.

CONSPIRACY MAY BE CHARGED NOW

County Attorney Undecided
on Course of Action
in Auto Case.

New charges against Eugene Augustus, local garage man, who is being held in connection with recent car robberies, probably will be filed today, County Attorney Wayne Wadlington said this morning. The exact nature of the charges to be entered had not been determined at noon.

Three courses of action were being considered by the county attorney's office in reference to the Augustus case, Wadlington said. The garage proprietor already faces one charge of grand larceny of an automobile belonging to A. O. Sutton, of Maxwell, on July 4, and is under \$1500 bond. New charges to be entered against him will be either for receiving stolen property, grand larceny or conspiracy with the owners of property to defraud the insurance companies.

New developments in automobile theft cases here in which Augustus and others are alleged to be implicated, are said to be of a very intricate nature. Several witnesses in the case were examined by the county attorney late yesterday but the nature of their testimony will not be made known until formal charges are entered, it is understood. Charges of plain larceny must be construed to involve the direct stealing of property, the county attorney explained. This may have to be discarded and one of the other two relied upon to cover the second complaint against the garage man, Wadlington intimated.

In the meantime, Sheriff Bob Duncan and his force are working on other lines which, Duncan declared, are expected to yield results within the next few days. "It is a slow process and we must handle it from the bottom," was the only hint Duncan would give this morning as to his probable course of procedure.

U. S. ENLIGHTENS JAPAN ON PARLEY

Foreign Office Informed as
to Relation to East-
ern Issue.

(By the Associated Press)
WASHINGTON, July 15.—The United States has informed Japan of its ideas on the scope of the disarmament conference.

This action is intended to meet the Japanese desire to know the extent to which the far eastern affairs are to be discussed before she goes further in considering the invitation to participate.

It is not now possible to say the extent to which the American government has gone into details, but it is understood that the communication was sufficient to afford material for a close study of the proposal by the Japanese foreign office. Official circles here continue evidencing every confidence that a complete acceptance of the American invitation will eventually come from Tokyo.

MARNE HEROES SPLIT ON ISSUE OF BONUS

(By the Associated Press)
MILWAUKEE, July 15.—Marne heroes of the Third Division in reunion here adopted a resolution today asking Congress for an immediate settlement of the bonus question. Some delegates argued that they were entitled to it to compensate them in part for high wages earned by the men who stayed at home, while others said that acceptance of a bonus would be equal to selling their patriotism.

RAINFALL TODAY IS .96 OF AN INCH HEAT RUNS HIGH

Rainfall here at 7 o'clock this morning had reached .96 of an inch, according to a government gauge report announced by E. A. MacMillan, local weather man. A little rain since that hour probably has brought the total rainfall today up to an inch. Mr. MacMillan believes. Yesterday was the hottest day of the summer here so far by 5 degrees, Mr. MacMillan reports. The temperature yesterday afternoon reached 99 in the shade, government indication.

G. O. P. CANNOT FOOL SOLDIERS SENATOR WARNS

Democrats Say Recommitment
Would be "Humiliating
Spectacle."

VOTE SET FOR 3 P. M.

Republicans Flayed for At-
tempting to Kill the
Patriotic Bills.

(By the Associated Press)

WASHINGTON, July 15.—The senate entered today on a four hour final debate before voting on the recommitment of the soldier bonus bill as requested by President Harding, with Senator Walsh, Democrat of Massachusetts, asserting that a recommitment would be "a humiliating spectacle." The voting hour was set by agreement at 3 p. m.

"It will be hailed on every platform," said Senator Walsh to the republican side, "as an indication of your stupidity and evasiveness. You are not fooling the patriotic ex-service men."

Senator Walsh declared that the republicans attempted to kill and delay the woman suffrage, income tax and prohibition constitutional amendments. He also flayed the administration of the war risk and other soldier relief work.

JAPAN PRAISES HARDING
HIGHLY FOR INITIATIVE

(By the Associated Press)
TOKIO, July 13.—The newspapers this morning pay a high tribute to the initiative of President Harding in proposing a conference of the great powers on the limitation of armament, declaring the moment opportune to study way of lightening the world's crushing burden of expense.

The popular enthusiasm was noticeably tempered as the newspapers comment indicated, by the failure of the Japanese government to arrange a prompt renewal of the Anglo-Japanese alliance and by the feeling that Japan might have to face a powerful Anglo-American combination in the suggested conference on far eastern affairs with China in the background as a diplomatic force to be reckoned with.

CHICAGO SWELTERS IN
HOTTEST DAY OF YEAR

(By the Associated Press)
CHICAGO, July 15.—Chicago today had sweltered through the first half of the hottest July on record in the local weather bureau with an average temperature for the first two weeks of nearly 10 degrees higher than normal. The average temperature thus far is 89 degrees, which is higher than the hottest July recorded by the weather bureau since 1872.

OKLAHOMA WEATHER
Tonight and Saturday partly
cloudy, cooler tonight, warmer in
the northern portion.

NOT YET 30 AND IS MELLON'S AID

S. Parker Gilbert.

Though he is not yet thirty, S. Parker Gilbert has just been appointed assistant secretary of the treasury. This is a newly created post and the under secretary becomes the ranking officer of the U. S. treasury next to Mellon. Gilbert is a graduate of Rutgers college, 1912, and of the Harvard law school, 1915. During the war he served on the war loan board.

VINITA BREAKER OF JAIL CAUGHT

Escaped Prisoner Smiles
and Admits Identity
When Arrested.

(By the Associated Press)

MUSKOGEE, July 15.—George Fluke, who escaped Friday night from the county jail at Vinita, while awaiting removal to the state penitentiary, to begin serving a life sentence for the murder of a mail carrier, was arrested here last night. Fluke was registered under an assumed name.

Fluke was recently convicted of the killing of Henry Frye, a rural mail carrier, whose route led out of Vinita. He broke jail with two others.

Fluke was arrested by officers shortly after he retired. He offered no resistance and admitted his identity. He stated, according to the officers, that he and his two confederates had been planning the jail break at Vinita for several weeks. Fluke said he was not the leader of the three men who broke the jail, but followed the advice of T. K. Krich, a fellow prisoner who was awaiting trial on a charge of automobile theft. Krich has not been apprehended.

RAINFALL HEAVY IN MANY PLACES

Hottest Day of Years Goes
Before Record Shower
for July.

(By the Associated Press)
OKLAHOMA CITY, July 15.—Moderate to heavy rainfall was recorded last night over the central and eastern part of the state, according to reports received here today by the weather bureau. The heaviest precipitation was in Oklahoma City where 2.30 inches fell. This is the heaviest here since last October and the heaviest July rain since 1916. There was little rain fall in the west, the reports indicated.

Yesterday was the hottest day of the year, according to records compiled at the weather bureau, the state average being 98.5. Alva and Mangum were the hottest places in the state, the mercury there rising to 104 degrees. A forecast for tonight and tomorrow of partly cloudy weather with slight relief from the heat in all sections of the state except the northern part was given out at the bureau.

RAIN AT NIGHT IN JULY BESTS OLD TIME SIGN

"Now what ye think o' that?" "Think of what?" "Think of it raining" at night right here in July. Why as long as I can remember I never heard of it raining" at night in July. It beats me." This from one of the old timers as he sat at the curb from his favorite resting place this morning.

There is an old saying here that it never rains at night in July, the old gentleman explained. He seemed very much upset about one of his favorite signs being broken. The rain last night was unexpected and many did not believe that it would come at night this month.

Following one of the hottest days of the year yesterday with very little breeze stirring, the rain was a great relief and made sleep possible for at least part of the night. Food stuffs will profit by it also it is reported.

New Federal Road Ready for Gravel Soon Say Reports

Work on the Ada-Alten road is progressing on schedule time and already considerable showing has been made. A large number of men and teams are kept busy preparing the grades and two new model gravel trucks have been hauling sand, gravel and chat for the construction of bridges and culverts. Surveyors have about completed their work and it is expected that the road will be ready for the gravel in a few weeks.

First dirt was turned at the intersection of Mississippi Avenue and the Frisco railroad and continued east to a point near the home of Former County Commissioner Brumley. Most of the material for the bridges had been hauled up to date and the man at work on the grading had reached the Francis road just north of the P. A. Norris farm.

LONDON KNEELS AS CONFERENCE IS BEING HELD

City Anxious Over Result
of Irish-British Meet
on Peace.

WHITE HALL PRAYS

Crowds Cheer DeValera as
He Leaves Conference
With Lloyd-George

(By the Associated Press)

LONDON, July 15.—Another meeting between Eamonn De Valera and Premier Lloyd-George took place today, this discussion of the preliminaries of the hope for Irish peace settlement lasting about an hour and a half. At the conclusion it was announced that the discussion will be resumed later, by next Monday.

The conference was again a two-man talk. In an adjoining room Sir Hamar Greenwood, chief secretary for Ireland; Lord Curzon, the foreign secretary; Art O'Brien, president of the Gaelic League in London, and R. C. Barton of the Irish delegation were on hand should their presence be desired. Members of Mr. De Valera's party have given definite assurance that nothing in the nature of a deadlock or a break down of the conference has been threatened at any time. Meanwhile Sir James Craig, the Ulster premier, arrived in London today from Belfast, announcing on his arrival that he will see the premier this afternoon.

Asked for an expression of his opinion Sir James replied: "The less said now the better," adding however, that he was hopeful.

At White Hall entrance to Downing street, scenes similar to those of yesterday were witnessed as the meeting between the British premier and the republican leader was in progress. Large crowds awaited Mr. De Valera and cheered him as he entered Downing street, repeating the ovation as he and his companions left at the close of the talk with Mr. Lloyd-George. As the conference proceeded, prayers for its success were said by the crowd in White Hall, the men and women kneeling and reciting the Rosary.

TWO KILLED, 30 INJURED
IN RIOTING AT BELFAST

(By the Associated Press)
BELFAST, July 15.—The military resumed control of the North Queen street area in Belfast this morning and armored cars were patrolling the street.

This morning it developed that two persons were killed and 30 or 40 wounded in the rioting last evening. The mob looted a number of public houses.

JAPAN LIMITS STAND
ON EASTERN QUESTION

(By the Associated Press)
TOKIO, July 15.—Japan's answer to President Harding's proposal for a conference on limitation of armament, which has been forwarded to Washington, while accepting the suggestion for an armament conference, says the Jiji Shimpo today, makes reservations concerning general far eastern question until more has been learned as to the scope and nature of the questions to be considered.

JAPAN FEARS HAVING
TO PLAY GAME ALONE

(By the Associated Press)
TOKIO, July 15.—What the significance is of President Harding's call for a general far eastern conference and how such a congress would affect Japan's future position in world affairs are the queries dominating public discussions. The trend of the general impression is that while Japan was expecting a call for a conference with Great Britain and the United States, she is surprised at the inclusion of other powers in the invitation, and looks with trepidation on an international examination of a magnitude promising to exceed the preconfab idea into far eastern problems.

Generally speaking, the fear is that Japan may be forced to play alone, with a diplomatic battle on her hands similar to the one at the Paris peace conference, besides being placed constantly on the defensive as regards her far eastern rights.

STARTING OF SOLDIER
HOSPITAL IS PLANNED

(By the Associated Press)
OKLAHOMA CITY, July 15.—The attorney general's office today authorized the soldier relief commission to institute condemning proceedings in the name of the state on several pieces of ground at Sulphur as a site for the soldier hospital authorized by the legislature.

MRS. YOUNG NOW WELL AND HAPPY

"Tanlac made me a well and happy woman and I will praise it the longest day I live," said Mrs. Rosalee Young, wife of O. A. Young, well-known contractor and builder of 620 West Eighteenth St., Oklahoma City, Okla.
"What makes my restoration to health all the more remarkable is the fact that I had been suffering for ten years but had never been able to find anything to give me relief. I had stomach trouble in its worst form, and no matter how little I ate I suffered for hours after every meal. I lost weight until I was little more than a shadow and I was so weak I couldn't do my housework. My kidneys bothered me a good deal and I had a constant ache across the small of my back."
"When I was in Los Angeles last year I heard so many people talking about Tanlac that I started taking it myself as soon as I got back home and it did just what they said it would do. I eat three hearty meals a day and my digestion is perfect. I have gained in weight, my kidneys no longer bother me and I feel fine in every way. I do not think there can be any doubt about Tanlac being the best medicine ever made."
Tanlac is sold in Ada by M. A. Waits Drug store.

PARISH CHAPEL ITEMS

M. B. Thompson and brother, J. N. Thompson, went to the ball game Saturday at Maxwell.
Mr. and Mrs. Irvin from Arkansas are visiting their old friends, Mr. and Mrs. Wood.
Ausbie Thompson and wife visited his mother Saturday night.
Miss Alla Wood spent Saturday night with her friend, Miss Gertrude Pennington.
There was quite a bunch of folks spent the Fourth of July on the river. There were 34 in all. They reported a fine time and all said they had a fine time, by gosh.
Mr. and Mrs. Lee Farmer went to Vanoss Tuesday on a business trip.
Mr. and Mrs. Meredith went to the picnic Monday.
There was a revival meeting started at Center Monday night.

IS HOLDING HIS OWN

"Ten years ago I received such wonderful help from your medicine for my stomach trouble that I have recommended it to hundreds of other sufferers. Recently a friend of mine whose brother in a distant city was stricken with acute indigestion and was not expected to live, got his brother to take a bottle on my advice. I have just received word that his brother was holding his own, and I am confident that May's Wonderful Remedy will entirely restore him." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments including appendicitis. One dose will convince or money refunded.—Gwin & Mays Drug Co.

Notice of Sale of Oil and Gas Lease. State of Oklahoma, Pontotoc County—ss.

In the County Court Probate 1365
Notice is hereby given in pursuance of an order of the County Court of Pontotoc County, State of Oklahoma, made and entered on the 12th day of July, 1921, the undersigned guardian will offer for sale and sell at public auction to the highest and best bidder an oil and gas mining lease on the 21st day of July, 1921, at 2 o'clock p. m. on the following described lands situated in Pontotoc County, State of Oklahoma, to-wit: The South Half of the Southwest Quarter of Section Three (3) and the Southeast Quarter Section Four (4) Township 4 North Range 7 East, containing 240 acres.

Said oil and gas lease will be sold on the following terms and conditions, to-wit: For a cash bonus of not less than \$1.00 per acre and a royalty of one-eighth of the oil produced from said premises.

Said sale to be held in the County Court Room of Pontotoc County, Oklahoma, at the time above stated.

Dated this 12th day of July, 1921. G. E. HUTCHINSON, Guardian.

J. F. McKeel, Atty. for Guardian 7-13-3td

FILING WAR RECORDS NOW NEAR COMPLETE

(By the Associated Press)
WASHINGTON, July 15.—(Capital News Service).—The work of assembling and filing those records of the world war and its participants which come under the supervision of the adjutant general of the army is fast approaching completion. If it were not for the special searches and additional efforts required by emergencies such as the preparation of the draft deserters' list, the work of the Adjutant General's office would be current.

DANDRUFF

Disease germs attack the scalp, destroying the hair growth, causing baldness, excessive dandruff, premature graying, dead-looking, lusterless hair and itching scalp. The rich lather of Hunt's Medicated Soap, carries with it to the very hair roots just the right combination of medicinal ingredients to remove itching, soothe inflamed hair growth and improve the condition of the hair that indicates the proper hair health.

COURT TURNS BIG AMOUNT TO STATE

\$34,035.90 Go Into the State Treasury in Year From the Bar.

OKLAHOMA CITY, July 15.—Fees totaling \$34,035.90 from the state supreme court, the criminal court of appeals and the state bar commission, were paid into the state treasury during the fiscal year ending June 30, according to a report made today by the clerk of the supreme court, covering collections in all three of these divisions of the state's law courts. Total collections of the supreme court and the criminal court of appeals amounted to \$32,867.90, according to the report, as against expenses and expenditures of \$15, 110.90. This amount, it is pointed out, is exclusive of salaries of the supreme court justices and the judges of the criminal court. It does include, however, the salaries of clerks and assistants, amounting to \$12,900.

Fees collected by the bar commission amounted to \$1,168 according to the figures compared with expenses and expenditures of \$1,492.00 more than the amount collected by the commission. A sum is placed to the credit of the bar commission, accruing from fees collected each month, which, added to its total, would considerably over-balance the cost of the commission's maintenance, the report states.

The last three months of the year brought in the highest monthly revenues from fees collected by the supreme court and court of appeals, an average of more than \$3,000 being noted each month. With the exception of February, this year, when collections amounted to \$1,827.25, the monthly fees were from \$2,250 to \$3,793.45.

OFFICERS GIVE WAGES TO STRIKING MINERS

(By the Associated Press)

INDIANAPOLIS, Ind., July 15.—No salaries will be accepted by more than 100 officers of the United Mine Workers of America for their work this month "because of the widespread unemployment among coal miners," said today's issue of the Mine Workers' Journal, official publication of the international union.

All officials, including the head officers, members of the international executive board, organizers and field workers, according to the announcement, "have volunteered to contribute their entire salaries for July to the organization in order that they may share the burden of hardships with the membership of the union."

The exact amount thus contributed was not announced, it being said that some of the officials work part time on a per diem basis. The total, however, was expected to come to several thousand dollars. John L. Lewis, as president of the union, receives \$666.66 a month, and Philip Murray, vice-president, and William Green, secretary, each receive \$583.33.

The salaries, it was explained at the union's headquarters, will remain in the general fund of the organization, which it was said has received many calls for relief, but maintains only one fund for all expenditures of the union.

"It has long been the cry of some people," said the Mine Workers' Journal today, "that regardless of whether the membership worked or not the salaries of the officers went on as usual. Such talk is indulged in solely for the purpose of creating distrust of the officers in the minds of the membership."

Union headquarters estimated that not less than 150,000 union miners in the country are out of work and that many thousands more work one to three days a week. Hundreds of mines, throughout the country, are closed and others are working short time because of the slack demand for coal, it was said.

A drowsy, half-sick, discouraged feeling is caused by a torpid liver and impurities in the stomach and bowels. Prickly Ash Bitters is a prompt and efficient remedy. Men who work need its cleansing and stimulating effect. Price \$1.25 per bottle. Sold by Gwin & Mays Drug Co.

NATIONAL HOG SHOW SCHEDULED FOR OCTOBER

(By the Associated Press)
CHICAGO, July 15.—The national swine show will be held in Peoria, Ill., this year, from Oct. 3 to 8, it is announced here by the National Swine Growers Association. The show has the assistance of a \$15,000 appropriation recently voted by the state legislature, and under the same aid it will be held next year again in Peoria. Contracts were signed this week.

Prizes totaling \$20,000 will be awarded this fall. W. J. Carmichael, secretary of the swine growers' association, adds to the announcement. This is the largest amount ever offered on this occasion.

Prospects are bright for the best college students' judging contest yet held at the national swine show, five different colleges now planning to enter. Mr. Carmichael reports.

The man who invented a want-ad was on to his job. It is the quick road to results. Try one.

PARISH CHAPEL NEWS

We sure are getting a good rain around here. Crops are looking fine but the boll weevils are eating the cotton nearly all up.

Mr. and Mrs. J. E. Maddox and Mr. and Mrs. Flat went fishing Saturday and came back Sunday. They caught lots of fish.

Miss Virgie Maddox, Miss Ollie Wood and Augusta Thompson went to the baptizing Sunday at Center.

There were a few from around here that went to Center Sunday night for meeting. All had a nice time but got wet coming home.

Miss Ola Owens spent Sunday and Sunday night with Miss Verla Farmer.

Mr. John Dryden spent Sunday night with Mike Thompson.

There was a party at Mr. Pennington's Thursday night. Every body had a nice time.

Miss Elsie Isaacs and Miss Gertrude Pennington spent Saturday night with Miss Florence and Ola Wood.

Miss Virgie Maddox spent Sunday night with Miss Augusta Thompson.

Mr. J. W. Thompson went to Ada Tuesday on a business trip.

STOOLS ARE POPULAR IN TULSA RESTAURANTS

(By the Associated Press)

TULSA, July 15.—While one-half of Tulsa is eating from tables covered with real or imitation table linen in their homes or at the high priced restaurants, the other half is sipping its soup and eating its beans off of stools. Of course they don't eat their food from the stools but use the stools to sit on while going through this necessary formality three times a day.

By actual count it has been discovered that more people in Tulsa eat at waffle houses and restaurants where stools are lined up in front of the counter than at the better restaurants where table service is provided.

Phone 4 is the place to get service in job work or advertising. Don't overlook your opportunities.

TREASURY TO REFUND WAR LOANS TO ALLIES

(By the Associated Press)

WASHINGTON, July 15.—The treasury policy is to proceed to the refunding of loans to allies and the collection of the interest thereon at the earliest possible date, Secretary Mellon declared today, resuming the discussion of the administration refunding bill before the senate finance committee.

Reports in London and New York that an agreement had been reached to defer interest payments on the British debt 15 years, he added, were "wholly unfounded and absolutely inconceivable."

TARIFF BILL IS READY NOW FOR AMENDMENT

(By the Associated Press)

WASHINGTON, July 15.—The Fordney tariff bill is up for committee amendment. The house considered first a proposal by the ways and means committee to remove hides from the free list and impose an ad valorem duty of 15 percent. The amendment includes hides and skins of all kinds.

GIRLS TO SELL TAGS FOR BAND TOMORROW

Saturday is tag day for the Ada band and tags will be sold by Ada High school girls for the purpose of raising money to pay the boys for their services in all public occasions. The boys have assisted in all public undertakings where their services were required.

Three kinds of tags will be sold, a 25 cent tag, a 50 cent tag, and a dollar tag. Everybody will be permitted to buy as many tags of each kind as he desires. The girls will be on the streets early tomorrow.

HUGO MELONS RUSHED TO MARKET THIS WEEK

HUGO, Okla., July 15.—Watermelons, musk melons, and cantaloupes are now being rushed into Hugo as never before. With a price ranging from 50 cents to \$1, farmers from near Hugo are showing their desire for netting the money that previously has been going to truck farmers who have been shipping into the city from southern states.

Early this week, several wagon loads of the large variety of watermelons and cantaloupes were brought into the city by farmers living south and east of here. This morning three loads were brought into town by a farmer living about 12 miles northeast of here who said that he expected to get a minimum price of 50 cents for them.

Want to buy a home? Turn to the want ads.

NEW TYPHOID SERUM IS HERE FOR PUBLIC

A fresh supply of typhoid serum has been received here and all persons are urged to take advantage of this. Serum will be given free and can be administered by any physician according to an announcement this afternoon by County Health Officer, Dr. J. A. Deen.

It will be administered free to persons who cannot pay for it, Dr. Deen stated. The county health officer, City Physician S. P. Ross, or the County Physician L. L. Cummings will give the serum treatment free to the indigent. Others may receive it from their own doctors.

FENTEM APPEALS FOR AID TO H. S.

Negro Minstrel to be Given
at Normal in Interest
of Activities.

By A. L. FENTEM
Principal Ada High School

The Ada High school assisted by some of its friends next Tuesday night at the Normal auditorium will present a real, genuine, old-fashioned, blackface negro minstrel. The circle, the end men with their "box of chestnuts," the dusky warblers, the nimble legged dancers, and the "ole banjo" all will be there. In addition will appear a bevy of the prettiest girls in the southwest, the High School Glee Club. Altogether there are forty people in the cast, and you know the rest when it is the high school doing it.

The obsequies will open Monday at 1 o'clock when the grand parade inaugurating the ticket sales campaign and featuring the best "cullud band" in the state and leading a host of the best performers off the professional stage will take the main part of the city by storm.

On Tuesday evening the following program will be rendered:

Curtain will rise on minstrel overture by circle and chorus of girls; the ballad singers for this act are Messrs. Russell Boud, Erle Fentem, and Oscar Parker. The comedians are Webb Riddle, Sam Wilensick, Frank Potts, Edwin Coleman, Fred Sloan and Shirley Greenburg. They're a scream, too—and Inez Love. The old songs, the old jokes, and the old cakewalk feature this act.

Act III, the Darktown Citizens' Training Camp, will be worth the price of admission. Meaders Jones, Sam Wilensick and W. K. Newcomb in the Arrival of the Captain will start the comedy; Inez Love, Louise Meaders and Sam Wilensick in the Fair Visitors will follow, introducing the Darktown Band and the Wonderful Reducing Box. You will have the rare opportunity of seeing a man the height of Mr. Felix of the High school faculty reduced to the height of a high school boy, say Joe Brown under the manipulations of that wonderful prestigitator, Floyd Laird. Say, folks, it will be worth twice the money. The act will close with a characteristic camp scene introducing D. T. Bradshaw with his "ole banjo," Guy Logsdon, Oscar Kimbrough, Fred Sloan and Joe Brown in every kind of old time negro dance known, and a sparring match between Mr. Felix and Shirley Greenburg. Say, we don't want to overlook the "Squad" in "Noah's Wife" and the Countdown Comedy Quartet in this part.

But, wait! The third act! The Sunflowers and Daisies. If you have never heard the best come out and hear this famous flower band sing My Mammy—Oh, boy—and then the songs by Miss Clarine Roach and Miss Donna Bell Lee. The act closes with the prettiest act that has ever been put on in Ada, a duet dance by Sarah and Frances Tunnell. Say, folks, it listens good, but it looks better.

Now what's it all for? Well, just this, every ticket you buy means fifty cents in the treasury of the Ada High Activities association. It means your support of athletics for the high school boys and girls, the band, the orchestra, the glee club, the high "Y," the debating team, the male quartet—in fact, all the activities. Every penny remains in town and is spent in the interest of your own boys and girls. But the high school is not asking you to donate anything, it is asking you to patronize liberally something that offers you full value for every cent spent. Remember, next Tuesday night at the Normal auditorium. The curtain music by the high school orchestra will begin at 8:15. Curtain rises at 8:30. Play will continue about one hour and thirty minutes. It will seem like thirty minutes.

Last Minute Telegraph

(By the Associated Press)

SAPULPA, July 15.—District Judge Lucien B. Wright, against whom bribery charges have been filed, left last night for Hot Springs, Arkansas, on a vacation. He will not return in time to take part in the preliminary hearing on July 27 in the case growing out of his decision in the Tommy Atkins \$1,930,000 oil case in which it is alleged that he took a bribe of \$10,000 to decide the case against the Charles Pace interests.

Judge Wright declared that he would prove himself innocent of all charges of misconduct and his attorney declared that the whole matter was a "frame up against Judge Wright by the Pace interests because they had lost the case."

Meanwhile, County Attorney McIlhinny let it be known that he was conducting an investigation which involves others. At least one more arrest in the case is near, the county attorney intimated. He refused to say anything further regarding the identity of the suspect or the nature of the charge.

CONSUL SAYS SUPPLY OF OIL ASSURED MEXICO

(By the Associated Press)

WASHINGTON, July 15.—Consul Ferris at Mexico City transmitted to the commerce department an estimate made public today that the Tampico-Tuxpam oil field will last two and a half years at the present production rate, but the message added that it appears that there is "no grounds for anxiety about the future oil supply in Mexico."

SLEEVELESS COAT IS NEW SUIT FAD

Silk suits are gaining favor as the days grow warmer and they are particularly good for wear at an afternoon at the races or at the country club. The sleeveless coat is the newest idea to be featured in these summer suits. The white tussah suit shows a pleated skirt and sleeveless coat, the lower part of which is elaborately embroidered.

Iowa Man Expected to Arrive Monday for Pickle Tests

It is reported that J. H. Atkinson of Brighton, Iowa, will be in the city Monday in the interest of the pickle plant which he planned for Ada several months ago. He has purchased a quantity of cucumbers from local farmers and will put them through the process required for pickling. If the trial is successful, he will return to Ada this fall to build the factory.

Cucumbers were planted by local truck growers for this trial and the test is being looked forward to with considerable interest. Mr. Atkinson was in the city several days early in the spring looking over the prospects for such a plant here.

IN SOCIETY

My House O' Dreams
At dawn I wake—all day I bake
And scrub and dust and stew;
I wash and sweep and hunt things
cheap,
'Monst other things I do.

I get three meals, darn porous heels
And wash small hands and ears;
I rip and press and turn a dress,
And banish wee ones' tears.

And still I smile—for all the while
Beyond my busy hands,
My house of dreams, dear, shining
dreams,
Just 'round the corner stands.

And still I sing, while fancies bring
Those fair white portals near;
There's leisure there and wealth to spare
And music rare to hear.

And so I sew and make things go,
And laugh, and sing, and pray;
That when I see that house I'll be
As happy as today.

—Mabel Louise Brightman

Mrs. R. E. Rustin, nee Temple Westbrook, and little son, Robert Hudson, who have been visiting her parents, Mr. and Mrs. J. W. Westbrook for several days, returned to her home at Austin, Texas, yesterday. Stops at Dallas and other points were being planned. Her husband will meet her in Dallas.

Miss Helen Webb arrived home this week from Siloam Springs, Arkansas, where she spent several days visiting relatives and friends.

Miss Ida Hudson of Coalgate is in the city for a visit with her daughter, Mrs. E. A. Allen.

Mr. and Mrs. Harold Morgan arrived in the city today for a week-end visit with relatives and friends.

Mrs. U. R. Newberry left yesterday afternoon for Purcell where she will spend a week visiting her mother, Mrs. I. T. Jackson.

Mr. and Mrs. Ed O'Brien, who have been in the city the past week visiting relatives, will leave today for their home in Sapulpa.

It was an enjoyable evening for the members of Mrs. J. A. Biles Sunday School class of the Christian church that went to Glenwood park Thursday afternoon. Lunch was taken and after spending a hour enjoying the play at the park, they ate dinner, returning home early in the evening.

Master Nathaniel Agnew, of Shawnee is here visiting his uncle and aunt Mr. and Mrs. John Agnew.

Mrs. H. S. Cooper and little daughter, Eloise, of Helena, Ark., are visiting Mrs. Cooper's parents, Mr. and Mrs. B. A. Mason.

All Must Share Readjustment Burden

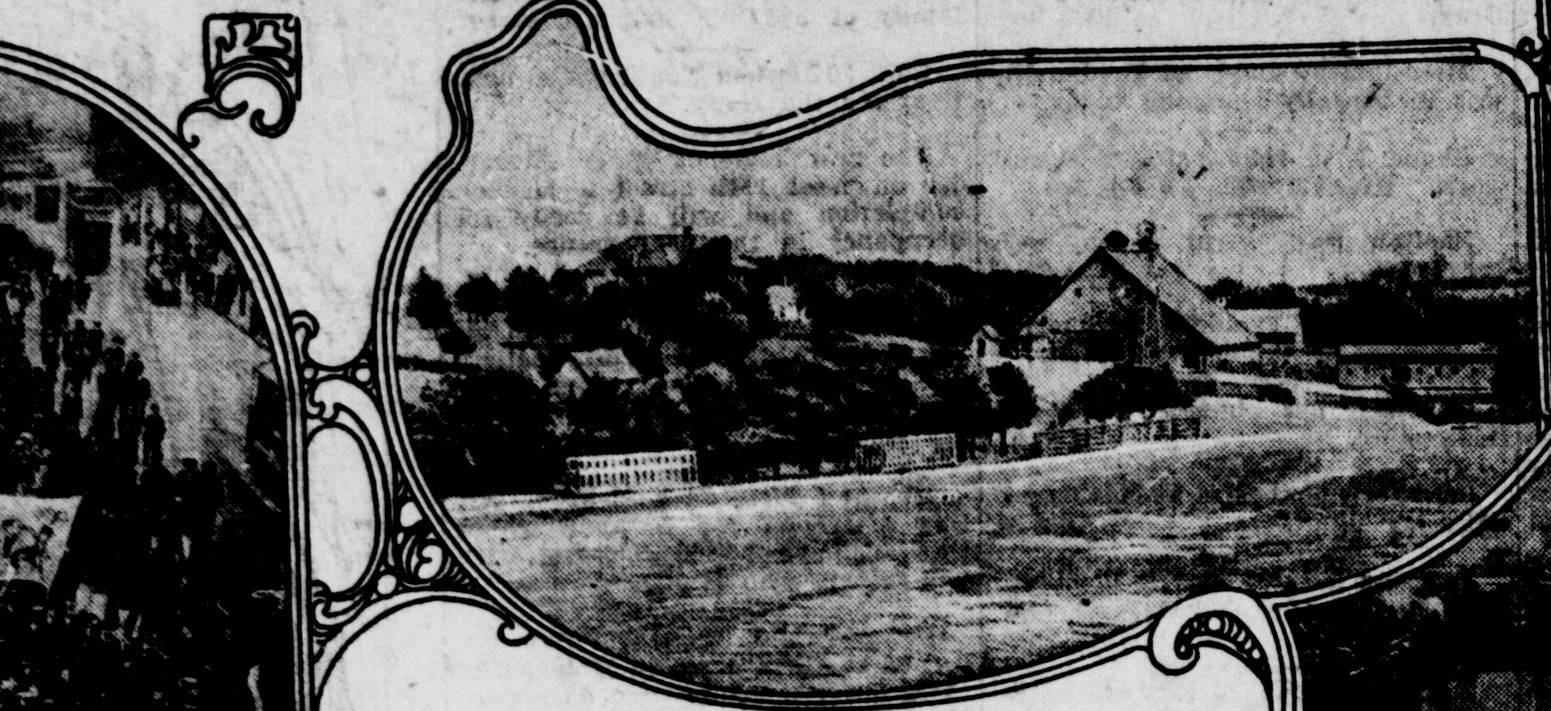

UNEMPLOYMENT PARADE IN LONDON.

By FRANCIS H. Sisson,
Vice-President Guaranty Trust
Company of New York.

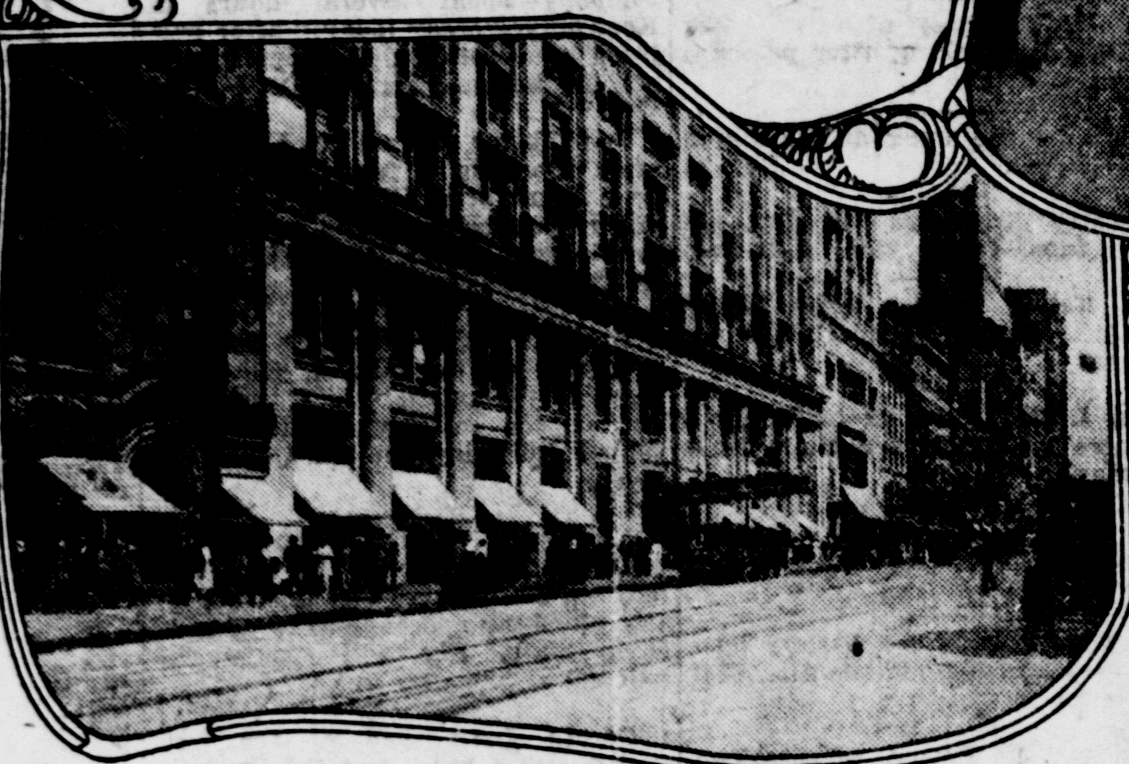

MANY business men seem to have been taken unawares by the sudden change in business conditions in the last twelve months. Their failure to foresee this change and to prepare for it was probably due in a large degree to the fact that they were not keeping well enough informed about the economic situation in general.

Our business men who properly studied the economic forces shaping business conditions during the war and in the subsequent boom period realized that commodity prices were soaring too far beyond the per capita purchasing power of the masses to remain long at such levels.

And today they are carefully observing economic trends to discount the future. Merchants and manufacturers are aware that this is a time to buy in smaller quantities and more frequently than usual, thereby avoiding the evil of

A TYPICAL PROSPEROUS WESTERN FARM—WHEN AGRICULTURE IS PROSPEROUS THE COUNTRY IS PROSPEROUS.

A VIEW IN ONE OF NEW YORK'S RETAIL SHOPPING CENTERS—THE READJUSTMENT OF RETAIL PRICES IS ONE OF THE MOST IMPORTANT FACTORS IN THE RETURN TO NORMAL BUSINESS CONDITIONS.

overstocking during this transition period. They see clearly that it is a wise policy not to hold goods for higher prices than existing costs of production warrant, although in some instances such goods may have been purchased at higher prices than present replacement costs. They apprehend the necessity for reducing overhead expenses as far as is compatible with sound business methods. They appreciate the ultimate advantage of sharing reduced costs with consumers. They are alert to the danger of extending credit beyond safe

limits and of tempting their customers with too easy credit.

Such business men recognize the sanctity of a contract and deplore the world-wide repudiation of obligations that has developed in the post-war deflation period. In fact, the sudden depreciation in business morals should concern us more than the precipitate depreciation in commodity values. Many financial bankruptcies are preceded by and

result from moral bankruptcies. And it is just as essential for business men to have a moral rating as a financial rating.

The widespread and increasing number of cancellations of orders, repudiations of contracts and protesting of irrevocable credits constitute one of the most serious business problems of the day. The majority of American business men, however, are living up to the

spirit as well as to the letter of their contracts. But the unscrupulous, unprincipled minority who are not doing so are jeopardizing the interests of the majority.

The importance of the retailer has never been more accentuated than now. The public has come to look upon the retailer's readjustments as the last in the cycle that must be completed before economic conditions are on a comparatively sound basis preparatory to a general revival of business. That popular conception was strikingly illustrated by the recent so-called buyers' strike.

I believe that the majority of our retailers understand this public psychology and fully appreciate their responsibility. I am confident that most of our retailers apprehend that the sooner their prices are made commensurate with the existing purchasing power of their customers the better it will be for themselves.

On the other hand, the public must comprehend that reduction of prices cannot be made arbitrarily

without due consideration for all the factors that enter into the process. Perhaps the chief of these is labor cost, which affects all others. When prices soared to prohibitive heights raw materials were the first to feel the reaction. But so long as labor costs remain high the manufacturers cannot pass along a large part of the reduction in the cost of materials because his biggest item of cost is labor.

The solution to the problem is lower production costs. We are in a period of smaller margin of profits than that which we have experienced for the last few years. Greater efficiency is urgently demanded.

The solution of this problem must be found before we can accomplish the most important of all necessary readjustments—namely, a stable basis of exchange between farm and industrial products, which, in the final analysis, is an exchange between farm and industrial labor. Agriculture is still our largest industry. When it is prosperous the country is prosperous,

but when it is not prosperous the country cannot be prosperous. And there is another problem which vitally concerns all of us—namely, unemployment. Like the repudiation of contracts, this also is a world-wide condition and must likewise be remedied as soon as possible. While we have been far more fortunate than any other nation, it is a serious matter to have three million people out of work even in this rich country.

Consequently the task of adequately financing our overseas commerce, which is the crux of the problem, is a matter of vital interest to every business man, farmer and laborer in the country. It is essential for all these elements of our body politic to do all in their power to make successful such movements as that represented by the Foreign Trade Financing Corporation, which is being organized with a capital stock of one hundred billion dollars, on which, under the Edge Act, it can extend a billion dollars in long-term credits to foreign buyers of American products and issue its own debentures against the collateral for these loans for sale to the American public.

Our productive capacity has steadily been increasing since the beginning of the World War. It now exceeds the capacity of domestic consumption. And it follows, therefore, that merely domestic readjustment cannot solve the problem of satisfactorily disposing of our surplus goods. Furthermore, all nations are so economically interdependent that employment in any one country depends to a large extent upon world-wide co-operation and facilities for the exchange of goods.

Because of world conditions and their influence upon us business recovery here will naturally be gradual, but all the better for that. It is a matter of national congratulation, however, that there are abundant indications that the tide in our business affairs has unmistakably turned. Confidence is being restored, and, very important despite the precipitate fall in the price of farm products, the latest reports from agricultural districts disclose the fact that the plight of our farmers, generally, is not as bad as we have been led to believe at first. Crops are being marketed gradually, and that means that newly created wealth is being made available to the nation. More industrial plants are reopening. Transportation facilities have been considerably improved since the railroads were returned to private control through greater efficiency in their use. Bank reserves have been materially strengthened, and banking conditions, in common with fundamental business conditions, are sound and have been considerably bettered recently through the steadier and more accelerated movement of agricultural products to market and through the more rapid liquidation of paper held by the banks.

BUICK

THE universal confidence of Buick owners in their Buick cars is the best testimonial of Buick worth. It is the result of years of satisfying service.

But Buick is more than dependable. It is comfortable and beautiful. Examine a 1922 Buick from the inside. Enjoy its many conveniences, its refinements, its roominess. And test the Buick Valve-in-Head motor on the steepest hill.

WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM

COURT TO ENTER ON CITY DOCKET

Seventy-Six Appeal Cases Booked for Friday and Saturday.

County court took a rest today from its straight criminal docket, on which it has been in session for practically the entire week, and went into sitting on the city appeal docket which contains 76 cases brought up from the municipal court.

In county court yesterday, Fred Chapman, charged with the unlawful possession of intoxicating liquor, was found not guilty and released. Many cases of the county criminal book have been continued and several dismissed within the last two days. After grinding two days at the end of this week on the city appeal bill, the court probably will double back on the straight criminal docket and consider several cases which have been continued to Monday, county officials said this morning.

At the conclusion of the city appeal docket and cases which have been set up by the court, a complete summary of the session will be compiled and published.

Maxwell Items.

Maxwell was visited by a nice rain that has spoiled all the nubbings in this vicinity.

The Maxwell Blues visited Byars Sunday for a game of ball and were rained out the seventh inning. The score was 2 to 3 in favor of Byars.

The Maxwell Blues will play Oakman July 16 on the Maxwell diamond. The Oakman team has a good reputation.

The Maxwell team will play a three days series at Roff with the Roff team beginning July 24. It will be a good outing for the boys. They will return home for a one day rest and will play Stratford two days at the picnic at Stratford the 27 and 28.

There is a good road movement on foot at Maxwell, Worstell and Bebee to build a highway from Ada to the bridge at Asher.

A coated tongue, bad breath, dizziness and a clogged condition in the bowels can be quickly relieved by using Prickly Ash Bitters. It is a man's remedy for such ailments. Price \$1.25 per bottle. Sold by Gwin & Mays Drug Co.

Two Kinds of Women

WE know a woman, who when she needs to purchase necessary things for the home or the family puts on her shopping costume, dabs a bit of powder on her nose and sallies forth.

She shops here and there and down another hunting and hunting. When she gets home she is j z y and j-a-d-e-d. She feels all mussed up mentally and physically.

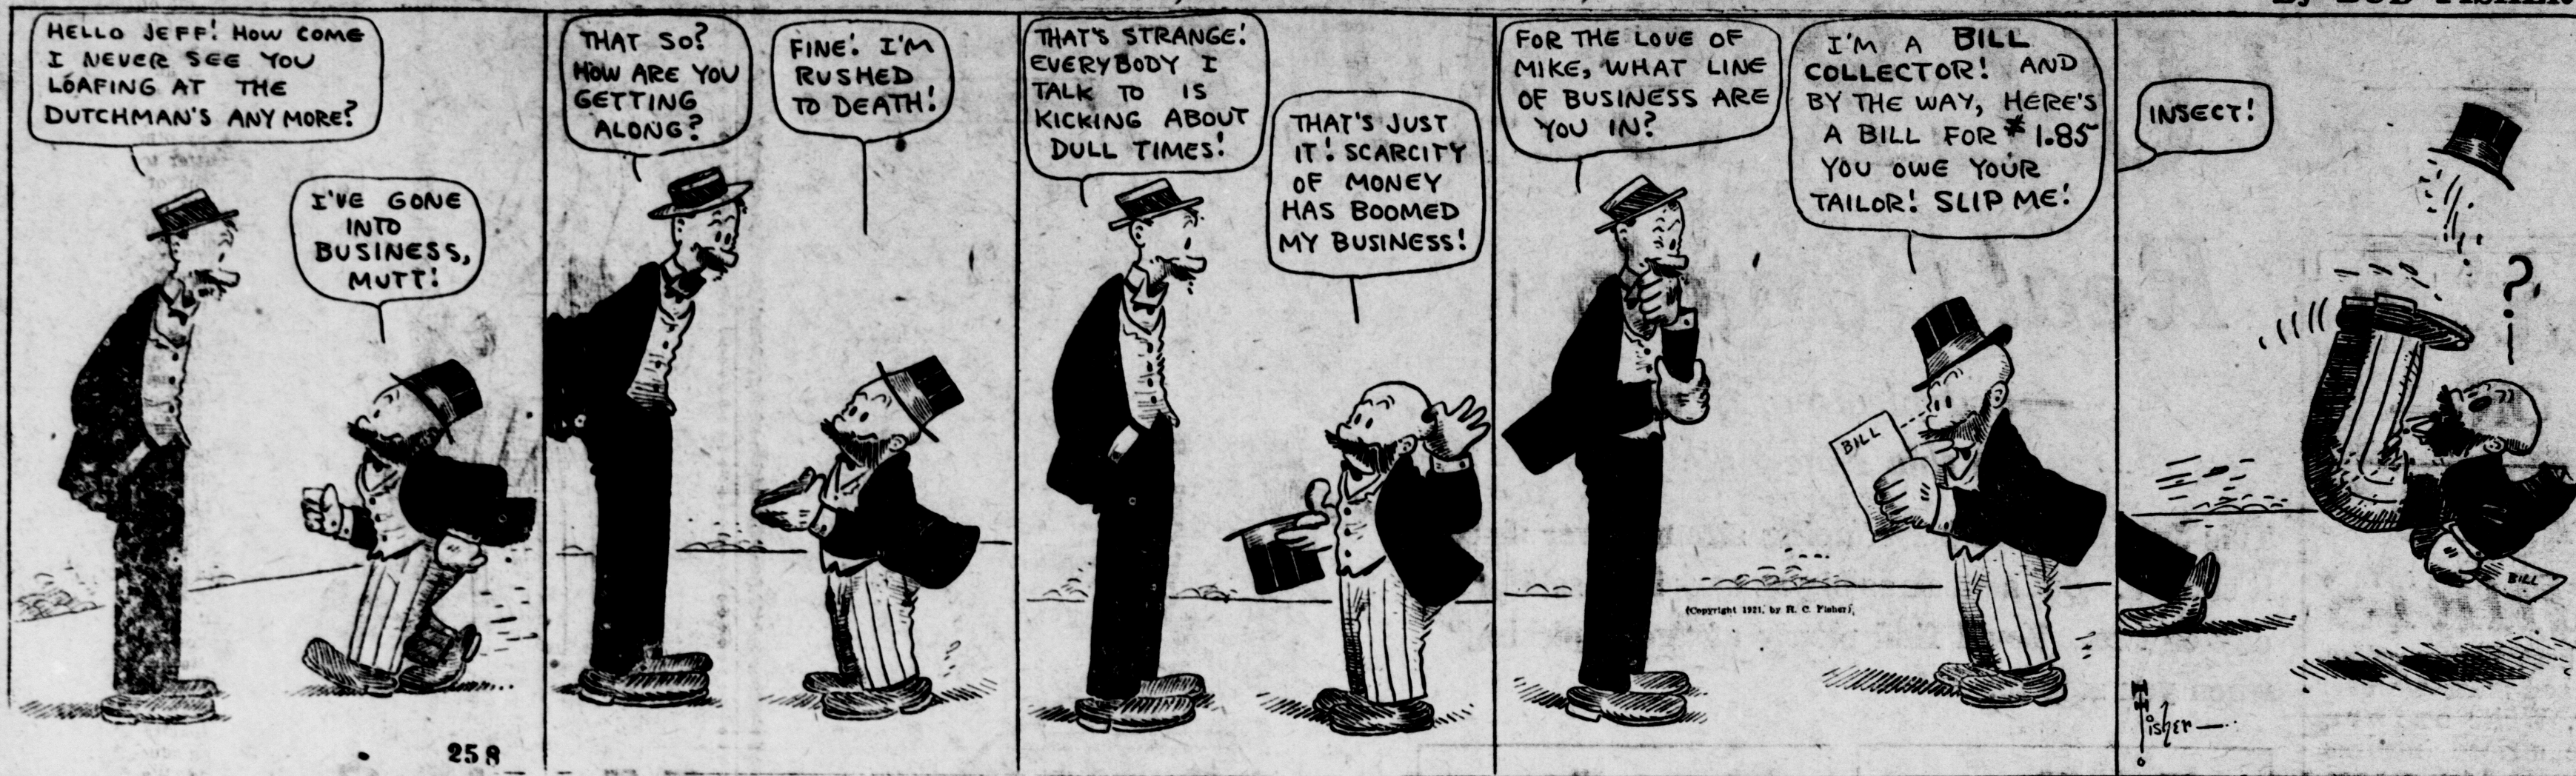

We know another who has learned the art of reading the advertisements before she starts out. She finds out what she wants and where to get it. Then goes straight down town and right to the store that has IT.

In this way she saves time, money and effort and comes home fresh as a daisy and ready to get friend husband a good dinner instead of taking him to the cafeteria.

Which one are you?

MUTT AND JEFF—The Little Fellow's Got a Man's Sized Job Now, Believe Us.

By BUD FISHER

THE TERRIBLE HEAT

Calls for light garments. These are the hardest for a cleaner to handle successfully. We succeed, however, because we are experts in charge of a modern plant.

WANTED—Rates for Classified Ads

Rates for classified advertising in this department are 25c per word for each insertion when more than one insertion is made; a minimum charge of 25c for one insertion only when 17 words or less are used. Copy must be in the office by 9:00 a. m. to insure proper classification. All want or classified ads must be accompanied by cash—no advertising of this class will be accepted unless paid for in advance.

SOLON'S DAUGHTER HOME FROM PANAMA

Miss Laura Volstead.

Miss Laura Volstead, daughter of Representative Andrew J. Volstead of Minnesota, chairman of the house judiciary committee, recently returned to Washington after an extended trip to Panama. Besides being a popular member of the younger congressional set in Washington she holds the position of confidential assistant to her father.

In The Oil Fields

The Producers and Refiners well in the NW NW of Section 6-2-6, is reported to be about 200 feet with some difficulty in running the casing. After a short delay last night, operations are expected to go forward today.

Drilling in the Transcontinental well, in the ne. ne. of section 14-5-4, has reached 2066 feet and has progressed five feet into a hard gray limestone, according to late reports from the field. It is impossible to estimate the thickness of this formation but drillers hope to find a sand beneath.

IN THE OIL FIELD—The Gillette well, in 36-5-6, is shut down temporarily. Drilling was discontinued at about 2500 feet.

GUN SERENADER AGAIN ON RANT POLICE REPORT

The bold, bad man came back to town again last night and continued his work of shooting up things. Residents in the eastern part of the city stated today that between 9 and 10 o'clock last night the man or men could be heard running up and down the streets shooting guns.

A like report was turned into the police Wednesday night and efforts made to capture him. He is reported to have been chased out of town on the Byrd's Mill road and officers believed that he was gone for good. His sudden appearance in another part of the city was not expected and he had completed his "fun" before officers could be notified.

Those who were near the scene of the wild celebrations state that he does not have anything in particular to shoot at, pointing his gun into the air and emptying it, "just to hear the noise." No reason for such strange actions were offered by anyone and all were at a loss to solve the mystery.

Sir Knights Attention
Regular Conclave of Ada Commandery No. 16, K. T. M. this evening at 8 o'clock. Business of importance to come before the commandery and work in the Red Cross and Malta degrees.

Visiting Sir Knights are cordially invited. F. C. Sims, recorder.

M'SWAIN ONE YEAR OF AGE NEXT MONDAY

The McSwain Theater will hold its first anniversary celebration next Monday by showing "Midsummer Madness," said to be a feature film. Foster McSwain, the owner, says he obtained the very best show possible for this date.

The McSwain has enjoyed liberal patronage since it opened its doors one year ago. The building and the interior decoration would do credit to a city several times the size of Ada.

"Midsummer Madness" has received many endorsements from the press. A few of these are given below:

Gazette, Fort Wayne, Ind.
"Midsummer Madness" is the real human stuff of which great pictures are made. William DeMille has produced an ideal combination of rich background and deeply appealing story. Also he has handled a delicate theme delicately.

Mail, New York
Mr. DeMille has done his finest work bringing to the screen that art of the dramatist which made him one of the noble figures of the American stage.

Telegram, New York
A production which from the viewpoint of the story, direction and acting, is the nearest perfect which the screen has had.

Telegraph, New York
If there were more pictures like "Midsummer Madness" there would be less dissatisfaction among motion picture enthusiasts. The new William DeMille production should be taken as an example of what can be done. You hear altogether too much of what the pictures are not. "Midsummer Madness" is an example of what good pictures should be.

A remarkable part of the picture is that all the characters are human beings, and you are deeply interested in them as such. It is well worth technically flawless. The people are all "just friends of yours. Other directors should see "Midsummer Madness" and study it.

Mr. DeMille has brought to his new picture that understanding and sympathy that we have missed so sorely. He has drawn real characters and has not adopted the prevailing trite methods of developing them.

News-Leader, Cleveland
William DeMille has given every motion picture producer a high mark to shoot at for screen plays in "Midsummer Madness." He has a human story enacted by a human cast. Each individual seems to live his or her individual role. The entire production "smacks" of a true-to-life to such a degree that it has a terrific punch and appeal from a technical standpoint the picture is practically flawless. Heartily recommended.

Free Press, Detroit
Although it deals with a conventional plot, the outstanding feature of the picture is the human action that has been achieved by William DeMille as director.

Citizen, Brooklyn, N. Y.
Its scenes are real, its photography excellent, and the acting exceptionally good.

Examiner, Los Angeles
"A film drama with a stage technique." Many directors, more critics and hundreds of eager playgoers have

long sought this expression in the cinema. It has been achieved to a limited extent in a few previous instances, but in no single picture, perhaps, has it reached so distinct an elevation as in the new William DeMille production, "Midsummer Madness," (Paramount) which opened at Grauman's Rialto yesterday.

Evening Ledger, Philadelphia
At a private showing of William DeMille's Production, "Midsummer Madness," the picture was voted one of the strongest in dramatic expression that he has produced. It is said to contain an elemental appeal and to be produced with charming investiture and great attention to characterization and detail. It is without sensationalism.

Don't forget the name of the remedy you need when the stomach or bowels are disordered. Prickly Ash Bitters quickly corrects such troubles and makes you feel bright and cheerful. Every man should have a bottle at home all the time. It is the dose taken promptly that prevents sickness, misery and expense. Price \$1.25 per bottle. Sold at Gwin & Mays Drug Co.

THE EDISON BUNCH ON BROADWAY

Sounds odd, doesn't it, to talk of an "EDISON BUNCH" and in connection with Broadway?

Particularly to you who always think of the Edison men as scientists—and to you who've come to our store and said: "The New Edison is wonderful—incomparably superior to all other phonographs—but the Edison Laboratories are too slow in getting out the new songs and dance hits."

The superlative beauty of Edison Re-Creations, for a long time, made necessary a much slower process of manufacture than is true of ordinary talking machine records. As a consequence, Edison Re-Creations could not be issued so quickly as ordinary talking-machine records were issued. Mr. Edison determined to overcome this difficulty. At a large expense, he has installed a special department, with special equipment, to expedite the manufacture of hits.

We take this announcement to mean that Edison intends to be first with Broadway hits, from henceforth.

This should be welcome news—both to Edison enthusiasts and to the popular music fans. To the former, because it means that they need no longer wait for the new songs and dances. To the latter, because it means that they can now buy first recordings out, and be sure of getting all the pep and flavor of the original Broadway performances.

P. S. Did you notice? Edison was first with practically all the hits of Spring and early Summer.

Soaring Mercury is Signal For Rush to Places Where Tempting Drinks Flow From Cold Regions

Sizzling hot days, when the mercury hovers around the high points, send street crowds scurrying for shade—and the cooling "jazz waters" that flow from fountain necks and cold bottles.

It is then that a shot of soda water and a dash of syrup, bottled in the twinkling of an eye, is often as good a lunch as the tired pedestrian needs. At least this is the philosophy held by T. B. Blake Jr., proprietor of the Ada Coca-Cola Bottling company, who supervises in one hot summer day alone, when machines at his plant are running at capacity, the topping of 600 cases or 14,400 bottles, of soda water.

Yesterday, a class of 20 home economics students from the Normal visited the works and many of them saw for the first time how their "red bottle" is prepared. "It's all so simple," Blake explained, "in the bottling process is wrapped up a lot of science and about 112 years of soda-pop history."

What becomes of your empty soda bottle when you swig the last luscious drop and cast the container into the dirt and weeds at the foot of the grandstand and then forget it while you root the home team on to victory? Perhaps you imagine, with thousands of others, that the bottle is grabbed up by a dirty boy, carried back to the bottling works, thrown in a tub, withdrawn without a turn, and refilled for the next person.

Cleanliness Is First.

Not so. In the local bottling works, sanitation plays the leading part. "Empties" are stacked into a rotary carrier, taken on a slow trip through a caustic alkali where they are sterilized and the waste products loosened, then they are put on a whirling brush which cleans them inside and out. To completed the operation, a spray of cold water is thrown through and over the bottle. Then it is refilled with a solution of carbonated water and syrup mixed 5 to 1.

Before bottles are shipped, they are thoroughly inspected over an electric testing machine to make

sure the contents are clean. And bottles are full to the neck. "When a man pays 8 cents for a bottle of soda he wants a whole one," the manager said.

Distilled water is not always the best form or liquid for human consumption, Blake declared. If indulged in consistently, it denies the human system the mineral matter and phosphates held in solution by other water. No fish can live long in distilled water, he pointed out. Soda water was invented by a South Second street Philadelphia druggist in 1807 and because of the fact that it does fill an actual human need has "fizzed itself" into the hearts of every generation of Americans since, it was shown.

Jay J. Morrow, new governor of the Panama Canal Zone, is shown here with his family on the steps of the governor's house which overlooks the canal from Balboa Heights. With Governor Morrow are Mrs. Morrow; Miss Alice Morrow, the governor's sister; Miss Mary W. Butler, sister of Mrs. Morrow; Mrs. James E. Morrow, the governor's mother, and the children of the Morrow family.
